Art Unit: 1782

1. The following is an examiner's statement of reasons for allowance: the primary reason for allowance is that the art of record does not anticipate or render obvious the claimed composite material having the claimed first and second spin-spin relaxation times. It is further noted that while rejoinder has been requested in the election without traverse filed, currently no method claims are pending which are of the same scope as the allowed product claims and therefore the method claims will not be rejoined. Also, it is noted that the terminal disclaimer filed 7/31/07 includes a typographical error and identifies application no 11/183,753 as 11/183,953. However, since the instant application is the earlier filed application and since application 11/183,753 is still pending the provisional obviousness type double patenting rejection is withdrawn. It is also noted that the claims of 11/183,753 do not recite the claimed first and second spin spin relaxation times. It is also noted that related application 11/134,292 now U.S. Patent No. 7438970 does claim first and second spin-spin relaxation times as claimed in the instant application, but it specifically defines thermoplastic resin at paragraph 0031 of the specification of 11/134,292 as excluding thermoplastic elastomers and thus there is no basis for an obviousness-type double patenting rejection over the claims of U.S. Patent No. 7438970.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

Art Unit: 1782

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

--Please cancel claims 11-22 which are drawn to the non-elected invention.

Election was made without traverse in paper dated 11 /4/05.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Nicolas Brentlinger on 5/28/10.

-- Please cancel claims 28-29.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth M. Cole whose telephone number is (571) 272-1475. The examiner may be reached between 6:30 AM and 6:00 PM Monday through Wednesday, and 6:30 AM and 2 PM on Thursday.
